High Efficiency Plant Nutrition With **STABILIZED ENRICHED POTASSIUM**

Distinctive Plant Nutrition

Essential Green CalPhusion is the first combination Phosphorous Calcium product offering high efficiency ionic nutrient. In true ionic form these nutrients are as small as they possibly can be. No need for nano when your hundreds of time smaller. The high protected Calcium to Phosphorous ratio along with stabilized Potassium makes CalPhusion the ultimate product where roots, yield, and stress resistance is important. The C-Plexx polymer is key in this revolutionary product with its crystal inhibiting properties.

- Low use rates.
- High Ca to P ratios for optimum yields.
- C-Plexx complex allows for a true stabilized potassium for longer lasting nutrient delivery.
- High efficiency Phosphorous for maximum roots and increased carbohydrate storage.
- C-Plexx polymer technology crystal inhibition for overall plant health.
- Absolute smallest available nutrient size measured in picometers.

C-PLEXX

GUARANTEED ANALYSIS 2.5-4-2

Available Nitrogen (N)	2.5%
Available Phosphate (P2O5)..	4.00%
Soluble Potash (K2O).....	2.00%
Calcium as (Ca).....	3.00%

Application Rates:

Boom spray: apply .5 to 1.5 gallons per acre every 1 to 2 months.
