CARBON-BASED PLANT NUTRITION

# Sweet K

Multi-Mineral • High Performance • Easy to Use • Enviro-Friendly

Long-term quality results on greens and high impact turf require products like Essential Green Sweet K™, which is the most affordable and unique carbon-based high efficiency product on the market.

Essential Green Sweet K™ is a Zero Nitrogen potassium and phosphorous solution made with dipotassium phosphate known for its anti stress related properties. Made with a proprietary process resulting in a unique emulsion based formulation that along with the surfactant allows the product to penetrate the soil and remain available to the plant without soil tie up. Patented with an organic acid, the environmentally-friendly solution offers golf superintendents and turf growers a true plant controlled (Ionic Plant Controlled) release formulation.

**ZERO  
NITROGEN**

Once Essential Green Sweet K™ is applied, the plant controls nutrient availability and uptake as the plant requires.

The addition of soluble carbon, polysaccharides, and kelp derived organic acids gives the plant the needed turgidity, moisture management, and increases plant cell wall strength.

1. Delivers performance with simplicity
2. Application is easy through emulsion liquid formulation
3. Long-term turf and plant nutrient uptake for the ultimate in plant health

Specially formulated with:

## Duo Maxx

Duo Maxx is a Patented organic acid derived from kelp designed to bond mineral nutrition. The release mechanism is the exudate of acids at the plant root making this a true plant controlled release product. The Duo Maxx bond enables optimum performance for mineral nutrition. Additionally, chemical volatility and plant stress is reduced with the addition of phenolic compounds.

### GUARANTEED ANALYSIS BY WEIGHT:

Soluble Potash  
(K2O)..... 15.00%  
Derived from:  
Potassium Citrate  
Plant Controlled Release  
Potassium

CONTAINS NON-PLANT  
FOOD INGREDIENTS:  
Duo Maxx Mineral  
Bonding Organic Acid

APPLICATION RATES:  
Turf: .5 - 1.0 Gallons per acre  
Plants: .25 - .75 % Dilution
