

Sweet KTM

Distinctive Plant Nutrition

Essential Green Sweet K supplies Stabilized Potassium in an easy to use liquid formulation. The protected Potassium ensures optimum yield and maximum protection against all stress conditions. Optimizing transpiration ensuring proper plant moisture and nutrient movement in the plant where and when needed. The C-Plexx polymer, Humic, and Fulvic Acids along with Essential Greens proprietary manufacturing methods Sweet K delivers nutrients in the picometer size hundreds of times smaller than any Nano products.

- Low use rates.
- High K to P ratios for optimum yields.
- C-Plexx complex allows for a true stabilized potassium for longer lasting nutrient delivery.
- Resistance to all stress conditions.
- Carbon inputs for healthier natural biological soil improving overall plant health.
- Absolute smallest available nutrient size possible at 243 picometers.
